### REMARKS

The Office action mailed 5 January 2005, has been received and its contents carefully noted. By this amendment, claims 15-21 have been canceled, and claims 22-24 and 26-30 have been withdrawn, and claims 31-36 have been added. Support may be found in the specification and the claims as originally filed. No statutory new matter has been added. Therefore, reconsideration and entry of the claims as amended is respectfully requested.

### Restriction Requirement

In the Office action mailed 5 February 2005, the Examiner required a restriction as follows:

- I. Claims 1-14 and 25 drawn to a single reactant component
- II. Claims 15-21 and 25 drawn to a device comprising the single reactant component
- III. Claims 22-24 drawn to method of making
- IV. Claims 26-28 drawn to method of assaying
- V. Claim 29 drawn to a method of identifying an unknown analyte
- VI. Claim 30 drawn to a signature pattern vector database.

The Examiner deemed that the inventions of Groups I through VI are distinct and unrelated to each other.

Applicants hereby elect to prosecute the claims of Invention I, without traverse.

Applicants have added claims 31-36. New claims 31-36 are dependent upon the claims of Invention I and therefore fall within the subject matter of Invention I and should be examined with the claims of Invention I.

Applicants have amended claim 30 such that it is a method claim that is dependent on claim 1 and have withdrawn it such that if the claims of Invention are found allowable, claim 30 as currently amended may be rejoined.

Applicants also reserve the right to pursue any canceled claims in a continuing application without prejudice or disclaimer.
